DUBAI READY MIX CONCRETE (LLC)

Dubai Ready Mix Concrete

Situated in Jebel Ali Industrial Area, the company operates from a 1,000,000 square feet purpose built site in Jebel Ali, accommodating material storage, test laboratory, administration, workshop, store and 4 fully computerized Batching Plants, producing 320 cubic meters per hour of ready mix, a chiller and an ice plant that produces 140 tons per day of ice, as well as diesel filling station.

The company owns 75 transit mixers each of 10 cubic meters Capacity, and a number of 11 concrete pumps (8 are 42 meters high, and 1 is 36 meters high & 2 nos. of Stationary pump) & 6 nos of Hydraulic placing boom.

Customized products

We tailor our ready-mix concrete to fit our clients' specific needs. By changing the proportion of water, aggregates, and cement in the mix, we modify our concrete's resistance, manageability, and finish. We also use additives to customize our concrete consistent with the transportation time from our plant to the project, weather conditions at the construction site, and the project's specifications. From our high-performance to our fluid-fill concrete, we produce a great variety of specially designed concrete to meet the many challenges of modern construction.

Ready-mix concrete is a multi-purpose product that brings us closer to our customers and enables us to fulfill their demand for more integrated building solutions.

Ready-mix concrete is an integral channel for our cement and aggregates. So we have designed and deployed advanced customer-service initiatives to reinforce this important part of the value chain.

Our comprehensive ready-mix platform encompasses all of the elements of the ready-mix business—from raw-material consumption to concrete production and delivery. This platform determines the right mix of concrete in response to a customer's individual specifications, enabling us to ensure consistent product quality, less waste, and greater client savings. It also programs our customer deliveries more efficiently and optimizes our ready-mix production and distribution networks.
